Technician Announcement Number: 06-079

AGR Announcement Number: 06-346

Position: Quality Assurance Specialist (Aircraft), GS-1910-09, 80118000

Brief Description of Duties: Performs management and compliance reviews over a wide range of specializations within the maintenance complex. Reports deviations and deficiencies and provides advice on resolution. Conducts quality verification inspections (QVI) of aircraft and engines to assure quality and acceptability standards have been met. Provides technical guidance, expertise, interpretation, and authoritative reference on methods, techniques and procedures. Develops methods for cost reduction programs. Develops methods for maximum mission effectiveness. Evaluates highly complex support equipment for failures affecting mission accomplishment. Reviews and evaluates quality control performance by analyzing inspections reports for area of coverage, adequacy of comments, and recommendations of the quality control inspections. Investigates failure trends attributable to design or quality of workmanship of aircraft airframes and components and systems. Provides inspection/surveillance support to assure quality and reliability of material, facilities, services and maintenance provided by contractor facilities, depots, SRAs, contract field teams and contract maintenance. Monitors TO system publication improvement and material deficiency reporting programs to include responsibilities outlined in appropriate directives. Administers the Functional Check Flight (FCF) program. Briefs and debriefs FCF crews as to the air worthiness of the weapons system. Conducts the weight and balance program. Performs other duties as assigned.

Qualifications: GS-09

General Experience:

Experience, education, or training which demonstrates the applicant's skill to present technical information verbally or in written form; skill to collect and analyze data; skill to apply guideline material by reading and interpreting technical material, and skill in dealing with others in a work relationship.

Specialized Experience:

Must demonstrate twenty-four (24) months experience in which the following Knowledge, Skills, and Abilities (KSA's) as described below have been attained.

Knowledge, Skills and Abilities (KSA's) Statements (GS-09)

- A. Knowledge of assigned aircraft and its characteristics to detect deficiencies in production rework areas.
- B. Knowledge of aircraft inspection methods, techniques and practices to detect conditions which may compromise quality.
- C. Ability to use precision measuring equipment, gauges and instrumentation for testing and special inspections as required.
- D. Knowledge of quality assurance methods, principles and practices to verify that essential quality requirements have been met; and identify problem areas and recommend corrective action.
- E. Skill in applying statistical analysis, sampling methods, and techniques to determine compliance with quality control.

**Current Unit assignment, AFSC/SSI and Military Grade must be included on application.
Incomplete applications will not be considered for employment.**
